

T13A BEAGLE Meeting Minutes

Date:26/10/21

Attendees:	Krishen, Johnie, Haokai, Dylan, Lawrence
-------------------	--

Agenda Item:	Discussion of Iteration 2 project mark and creating schedule for iteration 3 Allocate iteration 3 workload
---------------------	---

Discussion/Conclusions:

- Identified areas where tests failed for iteration 2 submission
 - Key areas identified were failing to account for global owner permissions in message/remove and message/edit
 - Checking that a global owner is a member of the channel in order to have owner permissions in the channel for channel/addowner and channel/removeowner
 - Reorder error testing to check for AccessError first in addowner and removeowner
- Ensure that comments for tests are docstrings and are inside each of the functions
- Functions that will have to update notifications in the database:
 - Message send, message send dm, message edit, message share
 - Message react
 - Dm create, channel invite
