

T13A BEAGLE Meeting Minutes

Date:9/11/21

Attendees: Krishen, Johnie, Haokai, Dylan, Lawrence

Agenda Item: Completing and reviewing planning.pdf document as well as reviewing through iteration 2 & 3 progress and feedback

Discussion/Conclusions:

- Had catch-up/ feedback session from Usmaan regarding iteration 2 feedback:
 - All files need to have a docstring at the start describing the contents of the file
 - Some of the test files were missing comments describing the tests
 - Some merge requests were missing meaningful names
 - The validation of inputs were repeating for some functions and could possibly be abstracted
- Completed validation, interface design and conceptual modelling for the planning.pdf document
- Discussion of how to implement solutions for problems from iteration 2
- Checking process of members, seeing which functions are blocked by others
- Creating acceptance criteria, drawing state modelling diagrams

Action Items	Person(s) responsible	Deadline
Finalise planning.pdf document	All group members	12/11
